FERRY LAUNCHING SATURDAY

HOSTS WILL GO FROM THIS CITY TO ALAMEDA FOR CEREMONY

Richmond not only will appear in person at Alameda Saturday evening to witness the launching of the City of Richmond, but will herald the event with plenty of good band music furnished by the city's crack cornet band. This was the decision handed down by the band manager last night at the usual practice assembly.

No limit can be placed on the demonstration to bring the City of

CHARLES VAN DAMME

Richmond into rightful service as a mighty factor to motor car and passenger travel between Marin county and Contra Costa, and no other avenue carries the vast patronage achieved by the Richmond-San Rafael ferry. For this reason the new ferry has been designed for attractiveness and dependability and convenience.

The Richmond-San Rafael ferry service was started May 14, 1915, and it is a coincidence that the launching of the new vessel falls undesignedly upon the anniversary—May 14, 1921.

It was a venture fraught with many difficulties and misgivings that Charles Van Damme and his associates entered when the first ferry boat was sent across the bay from Richmond to San Rafael.

Speaking of the event, Mose Moch. Continued on Page 2

Silver Trophies are Awarded to Lincoln Elementary School

One silver cup won in spirited and honorable contest with capable adversaries is considered a distinction, but when a school steps out on the track and takes two handsome trophies, and noses all others off the boards, why that's enough to make the whole works' chesty.

That's what Lincoln school did in the meet held in Richmond last Saturday.

Yesterday the big auditorium of the school was jammed for the presentation of the cups. The formalities of handing over the trophies devolved on Walter Meade, secretary of the Y. M. C. A., and Miss Adams, in charge of physical education of the Lincoln school. A happy speech of acceptance was made by Principal James E. Zumwalt.

The bright, shining cups were seen by a Record-Herald reporter at the office of Principal Zumwalt. But the eyes of the principal were quite as bright as the lustre of the cups, and why not? Last year Lincoln won a cup, and this year the boys and girls under his man stepped in and took every-

thing that was offered. And when the excitement lulled and the contenders marched triumphant from the field, there was sorrow because there were not other events.

Y. M. C. A. funds paid for the trophies.

The cups will be suitably engraved, and will be laid up among the most cherished possessions of Lincoln school.

Ribbons were awarded the individuals yesterday.

Due to the courtesy of Miss Adams, the Record-Herald is enabled to publish below the list of the individual winners in the various contests.

School children and patrons of the schools have shown a strong desire for the detailed list, and to meet this demand, the Record-Herald is delighted to give it in full:

Juniors—Boys
Class I. 75 lbs., 40 yard dash—Winner, Clyde, Bumgarner, Lincoln. 5 sec.; second, Leslie Tonder, Stege; third, Shirley Woodcock, Grant; fourth, George Gordon Grant.

The Shinolas, crack black-face entertainers from a Richmond Lodge, 1251 B. P. O. E., backed up by a bunch of non-performers, but not necessarily "bad actors," went to San Rafael last night and put on a show for their brother Elks.

On Tuesday evening of this week Esceemer Lecturing Knight Albert Wheeler, of San Rafael, came down and made a fine speech at the Mother's Day ceremonies of the Richmond Elks, and the gang are glad that an opportunity so soon came to show 'em at San Rafael that a little talent lies in this corner of the bay.

Half Ton of Iron Shipped by Mail From Richmond

One thousand pounds of twelve-inch pipe in sections three feet length yesterday was shipped by parcel post from Richmond to San Jose.

The shipment was by way of filling a rush order from San Jose, and went forward from the Western Pipe & Steel Company.

It is not an infrequent incident, shipping heavy steel and iron products from this port by parcel post.

It is claimed to be the cheapest and quickest method of transportation.

GRAND JURY DISCUSSION BOUNDARIES SUP. DIST.

The rearranging the boundaries of the supervisors' district of the county occupied the attention of the county Grand Jury yesterday at its session. All of the members of the board were called into consultation.

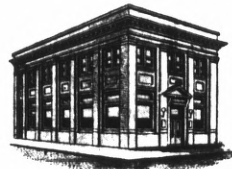

From what can be learned, it seemed to be the general opinion of the members of the grand jury that changes should be made in the district; that some of the districts are altogether too large at the present time, and others are too small.

When the boundaries of the district were fixed the last time, which was about 1900, the districts were about even in population and assessed valuation, but since that time the growth of the western section has been very rapid, with the result today that District No. 1, has over half of the population and about the same proportion of the assessed valuation.

It is very likely that the grand jury will make a recommendation, when its final report is filed, but just what it will be could not be ascertained.

SEAMEN LABOR STRIKE PROMISES TO BE LONG

The tie-up in the building trades at San Francisco will be protracted, in the opinion of T. A. McGinness, a contractor formerly well known in Richmond. He sees a widening of the breach between builder and workmen across the bay.

THINKOGRAPHS by F. J. HULANISKI

RICHES ARE NOT HAPPINESS

The older we grow and the more experience we accumulate in this world the more we become philosophers enough to figure out that riches do not make for happiness and contentment the one-hundredth part as much as other things. It is very nice, of course, to have everything one wants, but there are things one wants and needs, and has to have, which money cannot buy or sell, and at a time when that is lacking money seems small and insignificant indeed. The husband, the wife, the little children, the home and the environments of home are what go to make life worth the living, and if these be all right and happiness and contentment dwell within, the pomp and power and show and bluster of riches count small in comparison. Our neighbor may have a mansion, a flock of automobiles and a drove of liveried servants, but if he has no loving wife and no baby kisses on his lips, and we have, then he couldn't trade us all his splendor for what we have and he lacks. Silver and gold are all very well, but a good rest in the cottage home after a day's honest toil has joys that kopecks, rubles and dubbons do not possess. Our rich neighbor mayhap has a castle as silent as the tomb, where the trained servants make no noise with their footsteps, but if our bungalow resounds with the laughter of children, even though they dance to the music of a \$10 phonograph, there is joy in it, whereas lonely silence only brings out the glooms and the wishes for something more human. Maybe he has a ten thousand dollar piano, but it can't begin to make the music that our teakettle does when it sings blithely on the hearth, while the good wife busies around getting tea, and a chubby kiddie straddles our foot for a "ride on a white horse to Bambury Cross, to see the fine lady with rings on her fingers and bells on her toes." You can't beat it and money can't buy it.

'Tis a month now since Easter
 Put Dad on the bum,
 And the bills for the bonnets
 Continue to come.

Opportunity will look for you, all right, and find you, whenever you are worth looking for and finding.

Political pull and straw ball continue to let the crooks and criminals out of jail as fast as the policemen can run them in.

Most men have a secret conviction that the hero fund owes them something, if they could only get a chance to collect it.

We have had several years of reform, but it will be noticed that most of this talk about reducing taxes continues to transpire before elections.

The present problem seems to be to make what is in your cellar last throughout your days and still not die and leave any.

There are bouquets sympathy and laws to protect about all the white slaves except Father.

A high official says that half of the tax collected on ice cream, sodas and such things is kept by the merchants who collect it. It is also true that half of all the taxes assessed cost fifty cents on the dollar to collect them. Is this efficiency, or is it stupidity and rascality, mixed?

Dogs are pretty shiftless in many respects, but each and all of them will do all they possibly can toward catching a rabbit. And some of the rest of us do not even do that much.

Mack Sennett Will Make You Laugh in This Comedy

"A Small Town Idol," one of the few productions Mack Sennett has made in six-reel proportions, comes to the Richmond Theater today and tomorrow.

With practically every member of his all-star aggregation of funny folk enrolled in a congenial part, there is assurance that "A Small Town Idol" will more than make good in the distinguished presence of its Sennett predecessors.

Ben Turpin is the village hero. Phyllis Haver is his small town ideal; Marie Prevost is the city-girl that befriends poor Ben when the home-folk turn him down; Charlie Murray is the indefatigable constable; Jimmy Finlayson is the wretched villain who concocts all the trouble, and Kalla Paeha and Eddie Gribbon and all the rest of the Sennett notables are to be seen advantageously in the shifting scenes that cover as many places as are usually revealed in a half-dozen "problem plays" wherein the

slums and the green fields are visited.

"A Small Town Idol" is an authentic story of a village youth, wrongfully accused, making good in the city and returning to find—the villain espoused to his sweetheart and he (the hero) accused of murder. From all of which disfigures the ingenuity of Mack Sennett and the skill of his players extricate Ben to the joyful clang of wedding bells.

A Hey Rube comedy and Ford and Select News reel will complete the bill.

Little Girl at Play Hurt in Auto Accident

Little ten-year old May Thompson today is recovering at Cottage Hospital from injuries sustained when she was struck by an automobile at San Pablo and Fairmount avenues late Wednesday.

The little girl is reported to have been playing in the street with another child, and ran in the path of a car driven by Joseph E. Clark.

THE AUTO'S ONLY DRAWBACK

An automobile concern is advertising that it is putting out a machine that a young lover can drive with pleasure and profit. We don't want to hurt their feelings, but a lover can have more pleasure driving a one-horse buggy than he can with the finest car that runs on rubber. An automobile going sixty miles an hour is no place to tell a girl that she has the sweetest laugh, the cutest nose, the bluest eyes, the reddest lips and other things that a fellow tells a girl four miles south of town. Just about the time he gets to the nose or lips he suddenly notices that he is going over the fence in the general direction of the ground. No young man can pour out all that is in his heart when he has to keep both hands on a wheel; he should have at least one arm free to put on the right emphasis; in fact his technique will be better if he hangs the lines over the dashboard. In this way a real good worker can make so much progress in the right direction that the horse will turn its head around and rubber at what is going on. The old one-horse buggy with a creak in the off hind wheel and an egg rolling around the back part has made more hearts beat as one than all the automobiles ever constructed in Michigan.

There is some reason to suspect that what we call government is more of a mischief-maker and grafting expense than anything else. Whatever progress the country has made has been in spite of the government and in the face of active discouragement by the government. Still, we have to have that sort of thing, it seems, or go wild with Bolsheviks.

To the average layman there has always been considerable curiosity to know why a lawyer's statement of 500 pages set in pica type should be called a brief.

A lazy man always has a good deal to say about the lack of opportunity, hard work being his idea of nothing doing in the opportunity line.

A Boston scientist says "hot dog" contains more calories than ham, tongue or corned beef. All this may be true, and not being scientific, we are not in a position to deny it, but what in blazes else does it contain?

After a man gets along in years the pockets in which he formally carried love letters are filled with spectacle cases.

A Miss Lowell is out with a screed in which she says our professional humorists have no humor. That's just like a woman—can't keep a secret.

Of course, it is not expected that a man can get along on the old-fashioned salary now, which was not much more than the keep of his automobile amounts to these days.

We have pondered deeply and given the matter much thought, but cannot make up our mind, which looks the worse, a fat woman in a short and tight skirt or a skinny woman in a short and tight skirt.

While prices are pretty high yet, and all that, you can't think of anyone, right offhand, who is not thoroughly convinced that he is entitled to all the profit he is getting.

It may be said for the manicure girl, however, that she does not charge the highest recorded prices for the privilege of holding hands.

Cotati Balks Claim Local Contractors in Sonoma County

The claim of Galbraith & Jones, of this city, against the county of Sonoma, totalling \$3,517.77, for road work done on the Cotati-Sebastopol section of highway, is being held up. Citizens of Cotati are protesting against payment, based on a question of the right of the board of supervisors to make the expenditures.

Ferry Launching Next Saturday

(Continued from page one.)

manager, stated last night that Richmond turned out en masse and held high carnival when the first boat, the "Ellen" carrying sixteen automobiles made its first trip. Since that time the patronage has grown. The "Ellen" rapidly became too slow and small for the demands. In 1916, the Charles Van Damme, now in service was launched from the Robertson ship yards, then at Genicia. The launching took place in May also. The Charles Van Damme was believed at that time to be too large a vessel. This too proved an error in judging futures for the Van Damme carrying 43

automobiles soon had capacity loads and more frequent trips to meet.

During the past year the service has been growing steadily and to such an extent that even the larger vessel now to be launched will be taxed to handle the holiday crowds although the two boats have a combined capacity of more than 100 cars. The highest number of cars carried across the bay in one day was 1400 in 24 hours continuous running. This was Memorial Day, 1920. The public will this year have the advantage of the two-boat service for Memorial Day.

The Van Damme has won many laurels for steady service, and is one of the best productions of the San Francisco Bay ship yards. She was christened by Miss Garrard, daughter of E. J. Garrard, councilman.

The present day preparations for installation of new service between Richmond and San Rafael, include an investment of \$245,000 for the City of Richmond, and \$175,000 for the Van Damme. The two ferry slips and dockage facilities cost about \$50,000. Now the company is constructing new slips or enlarging the facilities and this investment will reach \$25,000. Work is now in progress driving piling for the addition to the present slips on both sides of the Bay.

The event of next Saturday includes particularly, the parade of Richmond motorists from the Chamber of Commerce, starting promptly at 5:45 p. m. Headed by an unique boat built by J. S. Bowen and showing a replica of the City of Richmond in miniature, the Municipal Band, and various organizations in line the parade will move

forward through Oakland across the estuary to the foot of Grand street where everyone will see the massive ferry boat standing high on the false work upon which she was constructed, and ready now to take to the water.

Around the stern of the City of Richmond there is built a platform holding about 100 persons, and the program will be carried out there. The band will render several pieces and the chairman of the day, E. J. Garrard, will announce the speakers. Mayor James N. Long is to tell the people of Richmond's pride in having the new boat named the "City of Richmond," and of its future outlook as a moving, prominent figure in proclaiming Richmond's progressiveness to thousands of people traveling the Bay district.

Mayor John L. Davie, of Oakland is to give Oakland's felicitations, and other speakers may be announced, but before much is said, Charles Van Damme, president of the Richmond-San Rafael Ferry & Transportation Company will be called to the front and acknowledge the greetings of the people.

This is to be a demonstration for Richmond and everyone who has at heart the welfare of Richmond, and the event is open to all no individual or general invitations are necessary, and in fact all are urged to fall in line at the Chamber of Commerce and automobiles will convey them to Alameda to attend the launching.

All who have cars and will carry guests with them on the trip are urged to accommodate those less fortunate who wish to witness the event.

Banners for each car will be provided at the Chamber of Commerce. The City of Richmond will go in to service May 28.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best, one must first get the food into the stomach. Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks. A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results. If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing and purifying the entire

WILL PHELPS BRINGS IN A VICTORY IN SCORE OF 2-0

WILLIAM L. "DOC" MORRIS

Chalk up another shut-out victory to the credit of Lanky Bill Phelps All-Standard winning twirler, who when not busy winning bowling titles, makes it miserable for aspiring pill-chasers who would rather batting averages at his expense.

Yesterday, Bill tightened the pinches and let the Mechanics outfit off with seven successive figures resembling the hole in a doughnut while his team stepped into the lead in the Twilight League race. Versatile Bill also knocked in one of the two runs tallied by doubling to the left field breast-works in the fourth, scoring Regan. Not a bad afternoon's work for a tosser of Phelps' worth we're thinking.

Game Not Exciting

The game was not as spectacular as the preceding league struggles. Not that it dragged. McDonough's hired man threw away as many runs as they garnered by poor judgment in the base running line. From the press cage, it looked like Freine might have taken up his abode on the third base sock in peace, instead of which he came charging into sure suicide when Snavey elicited a hard one to left in the third stanza. True, there were two down at the time, and it may look a whole lot different from the scribbles box than on the field. But that sort of work ought to be boycotted at that. We "perused" through old man Spalding's dictionary and specifically read that, "Richmond's versatile bowling champion than to die at home."

Even when a star flinger is on horsehide "where they ain't."

cupping the mound with two runs to the good, sez it the eminent creator of the diamond pastime. Mechanics Didn't Wanna Do It As for Cleek and his bunch from the Mechanical department, it did not seem to be their day to visitors and that's all there was to that. Someone had to be the goat and perhaps it is too much of a strain to be up leading the league for everybody to be picking on. The Mechanical gang got their chances to ruin the All-Standard reputation on more than one occasion, but the required bingle was left in the bat bag.

In the fifth, Cleek singled, "Dutch" Kogler flying to Freine. "Handsome" Paulino found himself resting at first, Cleek taking charge of the keystone sack on Daniel's hobble of what appeared a perfect chance for a double. "Baldy" Rubart singled and the bags were as full as Uncle Sam's mint. Came to bat Robins, known to his playmates as "Beans," and unmindful of the chance RANNED! And Chamberlain popped up to Radke. Think of it! The grandstands full of feminine rooters and neither of these noble ones delivered. Many a man has been put on a bread and water diet for less than that.

Phelps Stung in Pinches Maybe the pitching of Phelps had something to do with that victory. Bill struck out seven of the Mechanical clan, and did it when it had to be done or the day was lost.

Pinkerton edged into the picture startin' the game for the Mechanics. Pinky insisted he was ready, though he looked a bit pale from his recent convalescence. He was relieved in the fourth, when he looked woefully after a bit of hazy support and Phelps doubled scoring a man. "Dutch" Kogler went in cold and stopped the enemy. "Bananas" Viana made a perfect peg cutting off Radke who left third with the plunk of Daniel's fly, at the plate. "Bananas" took the applause he received very modestly. This scrappy and peppery pastimer may graduate this season. If he will hearken to the whispers of a certain scout from a league of coast classification.

For the fans who were kept away from the game, the following box score will tell the tale of how Richmond's versatile bowling champion kept 'em from knocking the horseshide "where they ain't."

The Fraternal Aid Union will hold their regular business session tonight at W. O. W. hall.

Thirteen tankers of the Standard Oil Company are lying in the bay as a result of the marine strike.

"If you send me you got to send my dog," sobbed 12-year-old Billy Dunlop as he faced Judge Ben Lindsey in the Juvenile Court in Denver and was sentenced to the State Reformatory School as an incorrigible. In sentencing Billy Judge Lindsey placed his hand on the lad's shoulder and Trixie, Billy's mongrel pup which had accompanied him to court, growled and seized the Judge's trousers. Moved by the loyalty of the lad and pup, Judge Lindsey found a way to grant the boy's request. "Billy," he said, "your dog is in contempt of court and I'll draw a formal order committing him to the state school with you for attacking the court." So Billy and his yellow pup went together.

MEAT TROUBLE CURED

Oakland, Nov. 1, 1920. To whom it May Concern:

I suffered from throat trouble for 15 years, during which time I could neither eat nor swallow without pain. I became very weak and was unable to work for months. I had numerous doctors and then tried a Throat specialist, who told me that my trouble was due to the blood. He advised me to take blood medicine. Thereupon my brother, who had been cured of Stomach Trouble by the FONG WAN HERBS, urged me to try them. After drinking the herbs for 15 weeks, I felt entirely well. I have since gained 25 pounds. It is 10 months since I took the herbs, and I am now giving this testimonial to let the public know that any sufferer should try the FONG WAN HERBS. I am a watchman for the California Food Specialties Co.

Antioch is Advertised By C. of C.

Coincident with the Big Boost campaign of the present day, Contra Costa county has entered the era of publicity and yesterday the Richmond Chamber of Commerce publicly bureau sent broadcast, the story of Antioch's achievement. It shows the following commendable items: "Antioch has unexcelled facilities for handling by rail and water the products of the Delta lands, shipping more asparagus than any town in the world and more celery than any town in the United States. The finest climate on earth. Deep water frontage, where sea-going vessels can and do come. The largest paper mill west of the Mis-

issippi river. One of the largest asparagus canneries on the coast. One of the finest equipped box factories in the State. More and better paved streets than any town of its size in California."

Jump in and Drive Away

With few exceptions, the used car has just commenced its period of real utility and service when it comes on the market. After a few thousand miles, the car gets "into its stride" as it were, and begins to return the money originally invested in it. That's why a good used car is always worth more than the price you pay for it.

We offer some splendid used car opportunities.

The Home-Staying Dollar

Is the dollar that counts in the long run. It's the dollar that eventually "comes back." If Jones buys a suit of clothes from Smith and Smith buys a pair of shoes from Jones, the dollars involved in the transaction stay in Richmond and both Jones and Smith make a profit.

If, however, Jones buys his suit in some other town and Smith goes elsewhere to buy his shoes, both Jones and Smith lose a profit and the money each spends may never come back to Richmond.

Too many Richmond people buy suits and shoes—and many other necessities—in other cities. Richmond is a prosperous community to be sure, but not nearly so prosperous as it would be if we all remembered that the home-staying dollar.
